

## Iceland

### Destination

Iceland really is somewhere like nowhere else on the planet! We love to take incentive travel groups to places they have never been before. Iceland will rock your world! Swim all year round in the blue lagoon, an outdoor naturally heated spa, visit the lunar landscape inland and be amazed at the active geysers, play in the capital at night and then experience the famous Northern Lights!

You can visit any time of the year, the incentive travel packages vary with the seasons. If you go in June you may even see the midnight sun! During the winter months inland winter sports are available for your group.
